

El Rocio Moresto Lite

A New Standard for Espresso

Released in 2024, the El Rocio Moresto Lite is a fresh reinterpretation of the entry-level espresso machine.

Equipped with a stabilizer to ensure consistent temperature, it is designed with a focus on accessibility and user-friendliness—making it easy for anyone to operate and achieve impressive extractions.

Its design also takes into account ease of maintenance after purchase. With high energy efficiency and low power consumption, it's simple and cost-effective to run.

- Heat Exchange Boiler
- 11L Stainless Steel Boiler
- User Display Interface
- 1 PID Controller
- Pre-infusion
- Auto Cleaning System
- Programmable espresso Volume
- Barista Light
- Built in Shot Timer

| Model | Version | Boiler | W * D * H | Weight | Power | Power Supply |
